

The Sherlock Holmes **CVD** and **HPHT** Lab-Grown Diamond Detector by Yehuda **Sherlock detects every type of Lab-Grown Diamond.**

1. You don't have to touch each diamond with a probe.
2. Sherlock identifies mounted and unmounted diamonds in bulk.
3. Sherlock instantly detects CVD lab-grown diamonds.
4. Sherlock will identify natural diamonds that have been color-enhanced through the HPHT process as natural diamonds.
5. Sherlock will identify lab-grown diamonds created through the HPHT process as lab-grown diamonds. (Yes, Sherlock knows the difference. He is a genius.)

Our Sherlock Holmes machine always finds the truth.

Sherlock can't be fooled.

Protect your customer.

Enhance your value as an expert.

Use this machine when buying diamonds, selling diamonds, taking in jewelry for repairs
